LOSS ON LIVESTOCK DUE TO BRUISING.

+++

Something unique in the way of educational work is being undertaken this year at the Edmonton Exhibition by the Provincial Department of Agriculture.

This is a special automatic exhibit depicting losses on livestock due to bruising incidental to loading and shipping, and the Provincial Department is putting on the exhibit, in co-operation with the University, with packers, producers and others interested, in an effort to minimise the losses thus created, the extent of which is probably not realised by a large proportion of those handling livestock.

The exhibit consists of an automatic motion picture and slide machine. The motion pictures show the proper method of loading and shipping livestock, with emphasis on swine. These motion pictures have been specially made right in Alberta, and will be an attraction in themselves. The slides on another part of the machine show figures compiled by one of the packing houses in Alberta, depicting the loss on livestock due to bruising. These figures will be a startling revelation to those who see them.

It will be well worth the while of every farmer and livestock man to visit the exhibit and study it. In co-operation with other provincial departments of agriculture the exhibit is also being shown at other Class "A" Fairs in the West.

The Publicity Branch of the Department of Agriculture will also have an exhibit at the Edmonton Ex. this year, located adjacent to the other exhibit. The Publicity display will include grains and grasses collected from all parts of the province, attractively arranged, and a display also of tar sands, coal and oil.

LOCAL NEWS.

This is **BEST WEEK.**
Mr C Chesser has gone to Jasper for a rest.

Jack McCulla has gone to Vancouver, for a rest.

Ph Alt returned Monday from St Albert, where he had been taking a few days' rest.

Charlie Schultz is up at Banff, taking a rest.

Constable Greene is now in charge of the local Police Detachment, the regular officer having gone to Calgary for a rest.

Wong Chee, the well-known Chink Chef, has retired from the cooking game for a short time. Wong claims he has worked 2192 16 hour consecutive days, and has gone to Saskatoon for a rest.

Mr Albert Kube, who has been indisposed for some time past, has gone to Oregon for a rest.

Mr E A Holt has gone to Holden, for a rest.

Mr Werner is planning to move out next week to his cottage at Edmonton Beach, for a rest.

Rev R Reppert was operated on last week in Edmonton, and is making good recovery.

Mr Lloyd E Wood, of the Crown Life, has gone to Muskoka.

NEWS ITEM: Otto Hoffman reports business so good with him he ain't handling nuthin' smaller'n ten-dollar bills.

Mr F Krause, a former resident of Stony Plain, was a visitor in town on Sunday.

The dance given in Stony the holiday night by the Football Club was a very successful affair, the hall being crowded by those who wished to trip the light fantastic to the good music supplied by the Edmonton musicians.

Walter League beat Golden Spike at the Beach diamond Sunday afternoon by 8 runs to 1. Following this, the Stony team played a 5-innings game. W L 2, Stony 4.

The football game at the local sports on Dominion Day resulted: Hudson Bay 4, and Stony 3. Baseball: Walther League 4, Spruce Grove 3. Tag-of-war: Stony's team beat the team of Farmers. The forenoon was devoted to a program for the children of St Matthew schools. An address was delivered by Rev E Elberhardt. Rev Mr Thies of Wataskwin spoke in connection with the Dominion Day celebration and made mention of the advantages of civil and religious liberty which we in Canada enjoy.

Meredith Bros. are now shipping their hogs to the Edmonton stock yards with their new truck. They find this system much more convenient for their business than relying on the steam railway. Paul is now covering Spruce Grove, this firm getting practically all the hogs shipped from these points.

Tiffany Bread Wraps Create a Sensation

There's quite a stir in the baking industry over the new Tiffany Bread Wrap.

The secret of it is the fancy lace pattern in the wax paper that bespeaks higher quality—and the fact that the lace design hides folds or creases in the wax, keeping the loaf fresh looking.

The beauty of this wrapper makes an instant appeal to the housewife.

Each wrapper is an effective selling force wherever the bread is displayed.

Write for samples and prices to-day.

Holiday In Canada

Taking a holiday is "good business," provided the holiday is spent in a sane, sensible manner and largely out of doors. Such a holiday is likewise a form of Good-Health Insurance. Money spent in a vacation in the open will prove a good investment and return handsome dividends in renewed vigor, increased energy to put into one's life work, and re-awakened enthusiasm and interest in life and all its manifold activities.

To the full extent possible people should spend the summer months in the open. Fresh air and sunshine are the best doctors in the world. They are doctors of preventive medicine and make no charge for their services which are free to all mankind, rich and poor alike. Summer holidays, to be most beneficial, should not be spent in visiting crowded cities, but in the woods, beside lakes, rivers and the sea, among the mountains—in a word, near to Nature's heart.

And no country in the world surpasses Canada as the ideal land for a summer vacation. People who can afford to do so, may flock to tropical countries during severe winter weather, or enjoy winter sports such as are provided in Switzerland and Eastern Canada, but for a most enjoyable and healthful invigorating summer holiday, no country surpasses and few can equal our own Dominion.

If the variety and beauty of its offerings, Nature was most prodigal in its treatment of Canada. Nor did she confine her gifts to any one Province or section of the Dominion, but with lavish hand distributed bounties on all. There is something to appeal to every taste and inclination of the human race.

Furthermore, probably in no other country can a vacation be enjoyed at less expense than in Canada. For a real holiday a person needs a complete change of scene and an entirely different environment in which to live ten or eleven working months are spent. In many of the older and thickly populated lands this is difficult to obtain without travelling long distances and at a cost beyond the means of the average person. But in Canada such a change is possible in a few hours journey with its great wealth of rivers, lakes, mountains, woods and seashores. Canada still remains a land of romance, a sportsman's paradise, with abundant natural beauty to inspire the poet, the artist and the lover of the wild. And these things are available to Canadians within the bounds of their respective Provinces.

But the dweller on the prairies of the West can at small expense obtain the greatest of all changes in his environment by spending his or her holiday in the Rockies, or journey a little farther and bask among the beauties of Nature along the Pacific coast, or proceed eastward to the Great Lakes. People of Ontario and Quebec might well with advantage to themselves, and in real service to a more united and understood Canada, take a holiday among the people of the other Province, while the holidaying citizens of these two Provinces and the Maritimes could with pleasure and profit interchange visits.

If Canada lacked in providing scenes of Nature's beauty, or if these spots were few and far between and therefore difficult and expensive of access, there would be some excuse for Canadians not holidaying at home and learning more of their great Dominion, but, as already noted, this country takes second place to none as a place in which to enjoy Nature at its best, and in which to recuperate in mind and body, forget one's business worries and responsibilities, and restore worn out and jangled nerves.

Canadians, of course, must not be narrow, provincial people. They should know the world, and to know other countries and peoples it is necessary to travel. But half the enjoyment and more than half of the advantages to be derived from foreign travel is found in first having the fullest possible knowledge of one's own country. "See Canada First," is, therefore, not only a telling slogan but good advice to all Canadians.

And while not disparaging the beauties and exhilaration of Canada's winter, it is none the less true that the summer vacation months offer the best time in which to visit all parts of the Dominion and learn of its beauties, its resources, its grandeur, its transcendent possibilities.

Purchases Exceed Sales

Russia Buys More From Great Britain Than She Sells

The council of the Russo-British Chamber of Commerce has published figures tending to show a steady increase in trade between Great Britain and Russia.

The growth is given as from £15,000,000 in 1922 to £58,000,000 in 1925. The report says Russian purchases from Great Britain slightly exceeded Russian sales in the British market. The latter consists almost entirely of foodstuffs and raw material, while

the Russian purchases are largely machinery, tools, textiles and other manufactured goods.

The council points out that the entire business has been conducted on a credit basis and says it is not aware of any case in which the Russian organizations have failed to carry out their obligations.

Better Gasoline Promised

May Mean Increased Efficiency and Economy in Automobile Operation

Increased efficiency and economy in automobile operation are forecast by government experts as the result of recent motor fuel studies by T. S. Slight, of the U.S. bureau of standards.

The simplicity of the Slight test is claimed to make it possible for refueling supervisors, by an easy graduation of oils under refinement, to produce without elaborate manipulation and increased expense, a "standard" gasoline meeting the specifications and giving the public more efficient, uniform, dependable gas without increase in price.

"My client is not mentally normal. The fact that he murdered his wife is partly a proof of that, but the fact that he married again is conclusive."

Find Magnificent Temple In East

Discovery in Indo-China, Made By French School of Excavation

A magnificent temple, dating back to the early fourteenth century, has been discovered by the French School of Excavation, in the Far East, now working in Indo-China. The temple is described as the finest example of the art of that period yet seen, and the inscriptions upon it throw considerable light upon history.

Experts of the school have just reported to the Institute in France that the temple is near Angkor Thom, and that other buildings of the same age probably will be uncovered in the vast forests north of the present excavations. These forests will be explored this year.

Another remarkable discovery was reported to the Institute from the province of Tsinh Hoa, Indo-China, where several Chinese tombs were unearthed, but not a single bone found. Precious objects in bronze and other metal were discovered.

Woman Will Attempt Flight Across Pole

French Actress Announces Intention To Try Trip This Summer

For years men have been seeking to locate the North Pole, and now the curiosity and itch for publicity has inspired a few of the other sex to dare the cold of the frozen lands. Miss Ida Rubinstein, a French actress, has announced her intention of flying across the pole this summer. In New York, another woman intends to gratify her craving for fresh experiences, and accompanying MacMillan's Polar party. Miss Marie B. Fisher, the aspirant for fame, is a graduate of Barnard College, and an athlete. "The quest for the unknown overshadows all fear," said Miss Fisher.

NO MEDICINE LIKE BABY'S OWN TABLETS

For Either the Newborn Babe or the Growing Child

There is no other medicine to equal Baby's Own Tablets for little ones—whether it be for the newborn babe or the growing child the Tablets always do good. They are absolutely free from opiates or other harmful drugs and the mother can always feel safe in using them. Concerning the Tablets, Mrs. John Armour, R.R. 1, South Monaghan, Ont., says:—"We have three fine, healthy children, to whom when a medicine is needed we have given only Baby's Own Tablets. The Tablets are the best medicine you can keep in any home where there are young children."

Baby's Own Tablets are a mild but thorough laxative which regulate the stomach and bowels; banish constipation and indigestion; break up colds and simple fever; and soothe teething aches. They are sold by medicine dealers or directly by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Poland Not Leaving League

Reports in Geneva that Poland was considering withdrawing from the League of Nations unless her demand for a permanent seat in the League Council is satisfied, were denied by Auguste Zeleski, foreign minister.

Whether the corn be old or new growth, it must yield to Holloway's Corn Remover.

Netted Small Fortune

Man Repaired Flag Poles In South Africa Preceding Visit of Prince

Hubert Kirkland, a South African, found his profession of steepjack at a discount when the Prince of Wales decided to visit South Africa in 1924. Kirkland seized the idea of touring the provinces according to the Prince's itinerary, repairing flagstaffs, adjusting pulleys, threading new ropes and mending bunting. He kept a good three months ahead of the Prince, returned to Durban with a small fortune and determined to make holiday.

He has now arrived in London from America after holidaying probably and leisurely to Australia and New Zealand, the Pacific Islands, India, the Straits Settlements and Canada. Kirkland would only smile shrewdly when asked what his flagpole work netted him.

Judgment Creditor (at the Bow County Court): The defendant has a dying business. Defendant: A dying business? I did have, but it is dead.

Minard's Liniment for Sore Feet

Fly - Flit - Flop!

FLIES breed in filth, feed on filth and bring filth into your home.

Flit spray clears your home in a few minutes of disease-bearing flies and mosquitoes. It is clean, safe and easy to use.

Kills All Household Insects

Flit spray also destroys bed bugs, roaches and ants. It searches out the cracks and crevices where they hide and breed, and destroys insects and their eggs. Spray Flit on your garments. Flit kills moths and their larvae which eat holes. Extensive tests showed that Flit spray did not stain the most delicate fabrics.

Flit is the result of exhaustive research by expert entomologists and chemists. It is harmless to mankind. Flit has replaced the old methods because it kills all the insects—and does it quickly. Get a Flit can and sprayer today.

Comparison By Total Tonnage.

Only Way to Judge Naval Armaments Says France

France has proposed to the disarmament experts meeting at Geneva that the only way of comparing the naval armaments of the various countries is by total naval tonnage. This raises the question of the effect adoption of the French thesis would have on the Washington naval agreement.

The significance of the French-Italian initiative is that both countries seek liberty to strengthen their submarine and cruiser forces which they deem more important to their national defence than battleships. Both United States and British delegates are hoping that the global tonnage conception will not interfere with the Washington accord. They believe that the ratios of capital ships established at Washington could remain the nucleus of such a tonnage programme.

Miller's Worm Powders act mildly and without injury to the child, and there can be no doubt of their deadly effect upon worms. They have been in successful use for a long time and are recognized as a leading preparation for the purpose. They have proved their power in numberless cases and have given relief to many children, who, but for the good offices of this compound, would have continued weak and enfeebled.

Even if the meek do inherit the earth in accordance with the ancient prophecy, they'll still have the traffic cops to contend with.

Recuperative Powers Of Fish

Frozen Solid By Liquid Air Will Revive In Water

An audience in New York was treated the other night to an exhibition of the recuperative power of fish under injury by extreme cold. Professor Estabrook, of City College, transferred from a bowl of water into a jar of liquid air, two goldfish. Upon removal when frozen, one was shattered into brittle fragments by a hammer. The other, returned to the water, soon swam about naturally.

Dust Causes Asthma. Even a little speck too small to see will lead to agonies which no words can describe. The walls of the breathing tubes contract and it seems as if the very life must pass. From this condition Dr. J. D. Kellie's Asthma Remedy brings the user to perfect rest. It relieves the passages and normal breathing is finally established again. Hundreds of testimonials received annually prove its effectiveness.

Plan Gas Attack Memorial. Survivors of the first gas attack by Germany on the Yser front, April 22, 1915, have taken steps that a monument be erected to those who were killed by the stifling fumes. "The Duchess of Vendôme heads a committee which has started the collection of funds for the monument.

Minard's Liniment for all pains

Of all the disagreeable fads known to mankind, the bill-collecting fad is about the worst.

Children Cry for

Fletcher's CASTORIA

MOTHER—Fletcher's Castoria is especially prepared to relieve Infants in arms and Children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of Dr. J. C. Fletcher. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

Bee Stings.

Minard's eases the pain and reduces the swelling caused by stings and insect bites. Keep it handy.

W. N. U. 1636

Canada Occupies Foremost Place In Seed Improvement And In Handling Registered Seed

Canada produced a considerably larger quantity of registered seed of principal farm plants in 1925 than in any previous year, according to a report just issued by Mr. Peter Stewart, secretary of the Canadian Seed Growers' Association. It grew 40,000 bushels more registered seed wheat last year than in 1924, eight thousand bushels more of seed barley and seven thousand bushels more of registered sweet clover seed. Increased production and ready sales of such seed, according to Mr. Stewart, indicates a growing appreciation of its qualities by farmers in Canada and in other countries.

A great deal of attention is given in this country to the provision of good seed for the farmer. Plant breeding is carried on by experts at agricultural colleges and experimental stations maintained by the Dominion and Provincial governments. It is also practiced by a number of individual growers who, according to Mr. L. H. Newman, the Dominion cerealist, have contributed very materially to the improvement of the varieties of cereals and other farm plants commonly grown in Canada. The object of the plant breeding operations is to evolve varieties of grains, vegetables and fruits that are suitable for cultivation under particular conditions of climate and soil, and that will measure up to certain standards of quality and quantity of yield. For example, cross-breeding of various strains of wheat has been prosecuted for a number of years at Dominion experimental farms to furnish varieties that will stand a certain degree of frost and survive a certain period of drought, that will produce a large yield of grain of good milling and baking quality. As everyone in Canada knows this cross-breeding of wheat has had results of great value to the farmer and the country at large. Allied with the experts who evolve new varieties of plants are growers who multiply the seed of those varieties and supply it to the farmers. Many of these men whose business it is to furnish good seed for the farmers are enrolled in the Canadian Seed Growers' Association, and in kindred organizations established in a number of the provinces. These men do work of great importance to agriculture in the Dominion.

Mr. L. H. Newman, the Dominion cerealist, has said that "among the nations of the world, Canada occupies a foremost place in regard to its organization both for systematic seed improvement and for the handling of high-class seed in commercial quantities under efficient control." These are indications that that fact is realized outside the Dominion. Marquis wheat, originally evolved in Canada, is grown throughout a large part of the hard wheat area of the United States. Last year a big shipment of Canadian registered seed wheat was shipped to Argentina to be planted by farmers there. Last year, too, the secretary of the Canadian Seed Growers' Association says, practically all of the supply of western-grown Canadian registered alfalfa seed was bought up by farmers of the middle-west section of the United States, who paid a considerable premium over the price of home-grown alfalfa seed plus a customs duty of four cents a pound. The Mail and Empire.

Dairy Industry Expanding

In Few Years Manitoba Has Built Up Wonderful Business

Manitoba's dairy industry continues to expand. Starting with almost nothing 19 years ago, the provincial dairy production of 1925 reached nearly \$14,000,000. The province won 44 per cent. of butter first prizes in 1925 and 34 per cent. of the total dairy prizes. The first export of butter was made in 1915 with 55 casks. Last year it was 315 exported to Eastern Canada and the British Isles.

Bright Outlook

Husband can't understand why wife ever complains about anything when she has his corns in the evening to look forward to.

Don't envy your neighbor's luck; envy his pluck, if anything.

W. N. U. 1836

Canada's Wheat Production

Will Reach Billion Bushels Annually Within Ten Years Is Prediction For five years Canadian wheat crops have averaged two bushels an acre more than those of the United States, says a bulletin issued by the International Institute of Agriculture. The Dominion's world record of production has averaged 16.5 bushels per acre since 1920, while that of the United States has been 13.3.

The five-year average for the other principal wheat growing countries is: Argentina 13.3 bushels, British India 11.9, Australia 11.7.

The bulletin predicts that within 10 years, with the set-aside of the Dominion's vast western agricultural lands, Canada's wheat production will reach a billion bushels annually.

Alberta's Striking Growth

Sunshine Province Shows Remarkable Progress in Last Twenty Years Alberta's progress during the period of twenty years is a striking evidence of the growth of the west, and especially of the Sunshine Province, as follows: Agricultural production from \$20,000,000 to \$254,000,000. Wheat production from 3 millions to 103 million bushels. Area of all crops from 616,000 to 11,000,000 acres. Dairy products from 1,000,000 to 323,000,000. Coal production from 937,000 tons to 5,800,000. Manufactures from nearly \$5,000,000 to \$54,337,800. 1,000 miles of railway have increased to 4,800 and population from 200,000 to 640,000.

Saskatchewan Dairy Industry

Eleven New Creamery Plants Have Been Established This Year.

Establishment of 11 new creamery plants in Saskatchewan to date this year in addition to replacements of old creameries sets a record not equaled since the dairy industry started in the province. New manufacturing plants have been opened at Regina, Moose Jaw (3), Swift Current, McNutt, Young, Parkdale, Speers and Kelvington.

P. E. Reed, dairy commissioner for Saskatchewan, stated that there was room for debate as to whether such a big increase in the number of creamery manufacturing plants was altogether justified by the present volume of production, but if production was diminished sufficiently to take care of the added overhead the industry as a whole would be benefited.

Safeguarding the Forests

Smoking in National Forests of Montana Strictly Forbidden

All smoking has been forbidden in the Kootenai national forest, Montana, as a safeguard against forest fires which recently have been increasing. If this regulation appears drastic it might be well to remember that the forest service has been trying for years to educate us not to be careless with fire in the woods, and apparently we have as yet not learned this first lesson in woodcraft.—Burlington Courier and Express.

Johnnie when asked by his people to define "deficit," said:

"A deficit is what you've got when you haven't as much as if you had had just nothing."

After marriage some women are as careless about their looks as men are about their actions.

New Vessel Is Chartered By Government For Annual Patrol Of Arctic Archipelago

New Paving Material

Experiments Now Being Made With Chips and Sawdust

Sawdust and wood chips are among the paving materials with which experiments are being made, says "Science Herald." The wood is first treated with creosote, and then submitted to pressure, and tests already made are said to have given a floor suitable for medium traffic from a mixture nine parts of sawdust to one of Portland cement. In German experiments, great adhesiveness for cement concrete is reported to have followed giving the wood or sawdust a preliminary washing with curd soap and water, and then with a thin solution of silicate of soda.

More Money In Butter

Cream Yields a Little But Butter Is Better

Recently Mrs. Alta Haley, of Rose Lake, Man., received the return from four gallons of fresh cream she had previously shipped to a local dairy company. The cheque was for \$2.52. For an experiment, immediately on receipt the woman made sixteen pounds of butter with four gallons of cream. She sold the butter at 40c a pound, or a total of \$6.40. She made, thus \$3.87 more with the same amount of cream.

"Have you wondered about your husband's past?"

"Dear me, no! I have all I can do taking care of his present and worrying about his future."

Choice of Dominion Capital To Be Celebrated

1. Entrance to Rideau Canal at Ottawa River before the destroyed Parliament Buildings. 2. Old entrance to Rideau Canal-Parliament Hill, as it looked 100 years ago, as right—from painting by Clegg at time of opening of C. 1832.

In the late summer of 1832, Lieutenant-Colonel John By, of the Royal Engineers, selected the spot where the Rideau Canal should enter the Ottawa River, and in so doing settled the site that afterwards became the capital of the Dominion of Canada. The centenary of this event is being marked this coming August, by a celebration which is expected to be national in character. The Dominion Government has already intimated its intention, not only of taking part, but of signalling the occasion by extension of its works for the beautification of the capital. The celebration itself will include historical pageantry and will draw from the western plains a spectacular "Stampede" as illustrative of one of the historic phases of the development of that broad section of the Dominion.

In making his journey up the Ottawa, Colonel By was not planning for the capital of a Dominion, but striving to strengthen the defences of one of the outposts of the British empire. During the war of 1812-15, says Hammett P. Hill, in a brief history of

the construction of the Rideau Canal, "the British authorities experienced much difficulty in attempting the defence of the western part of the province. This was owing to the difficulties of transporting men and supplies from Montreal to Kingston, because of the rapids on the St. Lawrence River. They were also faced with the danger of a U.S. army blocking progress up the river by seizing some of the transport from Montreal to Kingston was also excessive, being fifty-four shillings per cwt.

This was the problem which Col. By came out to Canada to solve. He had spent nine years in this country after 1802, when he had been entrusted with the construction of the Martello Towers at Quebec and the rebuilding of the Citadel, and he had also supervised the construction of the Cedars Canal near Montreal. The task of building the canal to connect the St. Lawrence and the Ottawa Rivers, 126 miles in length, through uninhabited country, was gigantic at that stage of the development of the country, and its builder as an engineer of high rank.

The coming of railways has superseded it and rendered it practically useless as a carrier of traffic; but it rendered valuable service in earlier days for the settlement of the province of Ontario, both east and west.

Three years after Bytown became Ottawa, it was chosen as the capital of the province of Canada.

The centenary celebration this summer will last two weeks, from August 16 to 28. The first week—August 16 to 21—will be devoted particularly to the centenary programme, which will include an historical pageant illustrating outstanding periods and events in the history of the capital. During the same period the Edmonton Stampede will give a daily programme; while arrangements are also being made for holding the Rutherford International Power Boat races for two days of the week. Plans are not fully completed for the celebration, but among other proposals under consideration are the erection of a monument to Colonel By. The Dominion Government is also preparing plans for the extension of the Driveway which is such an attractive feature of the city.

Preparations for the 1926 patrol of Canada's Arctic archipelago are being made by the North West Territories and Yukon branch of the department of the interior, and it is expected that the annual expedition will sail about July 10.

This year's visit to the far northern posts will be made in the S.S. Beothic, a sailing vessel of 2,700 tons capacity, with a speed of ten knots. This ship was chartered for the trip from Jobs Seal Fisheries Company, Limited, of St. John's, Newfoundland, to replace the C.G.S. Arctic, which is being retired from service. For the purpose for which she was built, which was to winter in the north in safety to herself and comfort to her crew, the Arctic could hardly be surpassed. She is past her prime, however, and with the gradual increase in the number of posts and the consequent heavier demands on ship accommodation a larger and speedier boat is required. The Arctic, certain accessories having been removed, has been turned over to the government salvage officer for disposal.

The Beothic, which has a greater speed and carrying capacity than the Arctic, was recommissioned last November at Newcastle-on-Tyne, England, for the seal fisheries. She was classed, for ice work at Lloyd's and in her initial trip to the seal fisheries this year performing splendidly, returning with a record catch of 45,000 skins.

This year's expedition will sail from North Sydney, Nova Scotia, instead of Quebec. The posts already established will be visited and an effort made to complete the establishment of the new post at Huckle Peninsula on Ellesmere Island, in latitude 79 deg. north. Owing to ice conditions last year the materials and supplies for this proposed post had to be left at Fram Haven, about fifteen miles south of Huckle Peninsula. This summer the Beothic will pick up these supplies and attempt the passage of Rice Strait and the crossing of Buchanan Bay to the site of the proposed post. On the return journey, if time and conditions permit, the Beothic will also cruise up either Lancaster sound or Jones Sound. The ship is expected to return, in late September or early October.

Mr. George P. Mackenzie will again be the officer in charge. One of the conditions of the charter party is that the crew of the Beothic will be retained. Captain Falk, its present commander, who has had considerable experience in the navigation of Hudson and Baffin Bays and adjacent waters will command the vessel. About ten members of the Royal Canadian Mounted Police will be taken north to relieve those coming out. Dr. L. J. Weeks, who accompanied last year's expedition as geologist, will also be included in this year's personnel. He, together with an assistant, Mr. Maurice Haycock, will establish a base at Pangnirtung, on Cumberland Sound. They will remain in the north until October, 1927, and during that time will gather geological and geographical information on the interior of Baffin Island. The other members of the expedition will be announced later.

Planting

A seed company received from one man fifteen applications for free samples of their pea seeds, and when the sixteenth request arrived the manager decided it was time he did something. "Dear Sir: I am sending you the seeds as requested; but what are you doing with so much? Are you planting your whole suburb with peas?" A few days later he received a reply:

"No," it ran, "I am not planting them at all. My wife uses them for soup."

John Bull and France

Not only is it unfair that a heavy subsidy in relief of the French taxpayer should continue to be paid by the British taxpayer in the form of interest on the French debt; it is also most unreasonable that at a time when France makes such a large claim on our financial considerations, she should have increased against British goods a tariff which already was exceptionally high.—London Chronicle.

Teakwood is so durable that beams 2,500 years old are still strong.

WORLD HAPPENINGS BRIEFLY TOLD

Miss Catherine Jellicoe, an aunt of the Earl of Jellicoe, died at Southampton, June 27. She would have been 125 within a few weeks.

Col. M. McLean, 87, Fenian Raid veteran, whose father was a factor for the Hudson's Bay Company in Western Canada, is dead.

Saskatchewan's bee population has been increased this year by a big influx of imported bees from various points in the Southern States and also Manitoba apiaries.

The King and Queen opened a new wing of the Tate Picture Gallery, near Westminster, including a special gallery housing 200 oil paintings, water colors and sketches of the late John Sargent.

Pickets enforcing the anti-British strike and boycott against Hong Kong killed five persons and wounded another when they fired into a group of Chinese about to board a vessel for Hong Kong.

Exile to the Maria Islands has been decreed by the Mexico Government as the penalty for illegal sale of narcotics. Proprietors of stores caught selling drugs illegally, will be forbidden to operate drug stores in Mexico again.

League of Nations officials insist that the resignation of several or any of the small powers will not seriously affect the league's influence, and that only if a great power like Great Britain or France resigns would the league be really in peril.

Labor leaders in Harbin, Manchuria, are collecting \$20,000 to be sent to England to aid striking British miners. Members of professional unions are required to subscribe one per cent. of their monthly wages to make up the \$20,000 quota.

The will of John R. Booth, Canada's foremost lumberman, who died last fall, was filed in the Surrogate Court at Ottawa and disposes of an estate estimated at \$7,626.02. The entire estate is left to his three surviving children, two sons, C. J. Booth and J. Frederick Booth, and one daughter, Mrs. H. Gertrude Fleck, widow of the late Andrew Fleck, who all reside in Ottawa.

TEETHING BABIES Thousands of Them DIE EVERY SUMMER

The hot weather is very hard on babies starting to cut their teeth. On the first signs of any looseness of the bowels the mother should give a few doses of

This will quickly offset the diarrhoea, vomiting and purging, and, perhaps save the baby's life.
Put up only by The T. Millburn Co., Limited, Toronto, Ont.

W. N. U. 1636

Northern Route For Cattle

Mayor of Saskatoon is a Strong Supporter of the H. B. R. Mayor Russell Wilson, of Saskatoon, is a strong advocate for the early completion of the Hudson Bay Railway. In a recent interview with the local Saskatoon paper his worship said:

"As mayor of Saskatoon it is my policy in co-operation with the other members of the city council, the board of trade, the press and all other citizens to secure at the earliest possible date such railway construction as will link up Saskatoon and Hudson Bay Junction by the shortest possible mileage. While I cannot, of course, state definitely what that mileage would be, an approximate estimate is 175 miles. From there The Pas is 88 miles and from that town to Port Nelson is 424 miles, being a total of 687 miles from Saskatoon to the water. The proposed line giving Saskatoon direct connection with the Hudson Bay Railway would, no doubt, pass through Humboldt.

"It can reasonably be anticipated," says the mayor, "that one of the many readjustments in the routing of traffic following the opening of the bay route will be in connection with the great cattle industry of Southern Alberta. I anticipate the day when those cattle will pass through Saskatoon enroute to Liverpool and other European ports."

"From, say, Calgary to Montreal via the Canadian Pacific Railway is 2,245 miles. From Montreal to Liverpool via Belle Isle—a route available only a portion of the year—is 2,760 miles, a total, Calgary to Liverpool, of 5,005 miles, the rail haul being 45 per cent. of the total mileage. From Calgary to Liverpool via Montreal and Cape Race the mileage is 5,255 miles, of which the rail haul is 45 per cent."

"From Calgary to Port Nelson, via the proposed direct line, Saskatoon to Hudson Bay Junction, the mileage approximately would be, Calgary to Saskatoon, 400 miles; Saskatoon to Port Nelson, 697 miles, a total of 1,097 miles—say 1,100 miles—and from Port Nelson to Liverpool 2,966 miles—a total of 4,066 miles, of which only 27 per cent. is rail haul." The mayor, as one familiar with the subject, pointed out that while cattle in transit "shrink," during railway travel, they "pick up" on board ship. Also that the coolness of the bay route would insure their arrival at port of disembarkation in fine condition and he stressed two marked advantages as favoring the bay route for cattle shipment—less total mileage and a lower percentage of that total; being rail haul than that of any existing North Atlantic route."

Pain in the Back Yields to Nerviline

If you have failed to secure relief from other remedies, rub on lots of good old "Nerviline," the strongest, most penetrating pain relief on the market. Nerviline acts quickly on small pains and is the surest to drive out the big ones. It's because every drop of Nerviline rubs in, because it has the ability to sink in deeply that it drives away pain that ordinary oil Liniments won't touch. Large 35c bottles at all dealers.

Dedicate Window In Westminster Abbey

In Memory of British War Prisoners Who Died in Germany A beautiful window in the north side of the nave of Westminster Abbey, which was donated by James W. Gerard, former United States ambassador in Berlin, in memory of British prisoners of war who died in Germany, was dedicated in London. The ceremony was performed by Dr. Foley Norris, dean of Westminster. Mr. Gerard was represented by Alan B. Houghton, the American ambassador to London, and many other Americans were present.

Strange Aquatic Animal
A strange looking aquatic animal reported to be half the length of a canoe, and believed to be a giant sturgeon of a species known to abound in northern waters, was seen in the Ottawa River recently. It was first thought to be one of two pet alligators who escaped from Aylmer, Que., last fall, but naturalists claim an alligator could not survive a winter in a frozen river.

Success is the only thing that can turn a man's head when he has a stiff neck.

SUNDAY SCHOOL LESSON

JULY 4.

CHILDHOOD AND EDUCATION OF MOSES

Golden Text: Train up a child in the way he should go. And even when he is old he will not depart from it. Proverbs 22:6.
Lesson: Exodus 2:1-10; Acts 7:22. Devotional Reading: Proverbs 3:11-18.

Explanations and Comments

The Birth and Hiding of Moses, Exodus 2:1-4.—To Amram and Jochebed (Ex. 6:20), husband and wife who belonged to the tribe of Levi, a son was born. The mother saw that he was strong and healthy, "a goodly child." Stephen called him "exceeding fair," Acts 7:20.
"Some people have to struggle all their lives against physical disabilities and deformities. Moses was an armory of appeals and a basket of charms from the beginning. It is useless to teach a child who is marked out from his fellows by unusual attractiveness, and power, that he is no better than his fellows. There is only one way of coping with the situation. From the beginning, the privileged one must be taught his duty to the unprivileged. Privilege and responsibility are indissolubly united. That is the wholesome truth, which is as salt to the 'unusually enriched life' (R. C. Gillette).

For three months Jochebed kept her babe secretly hidden, despite Pharaoh's command that every son of the Hebrews should be cast into the Nile, where they would be devoured by crocodiles.

There are hosts of babies in our great cities who are exposed to a worse fate than were the Hebrew infants. What is bludge done to save them?

Jabot Treatments Lend Grace to Daytime Frocks

This chic frock illustrates the simplicity of treatment which expresses the correct note for general daytime wear. Developed in one of the wide bordered creases, it has soft gathers at each shoulder where the back comes over to meet the front, creating, as it were, a yoke effect. Gracefully draped Jabots outline the deep V front opening, and an inverted plait extends from the waistline to the lower edge of the skirt. The back is straight and a narrow belt creates the new pounced effect at the sides. No. 1339 is in sizes 26, 28, 30, 32 and 34 inches bust. Size 38 bust requires 4 yards 29-inch for dress made of plain material, or 3 1/2 yards for material as illustrated. Price 20 cents.

Many styles of smart apparel may be found in our new Fashion Book. Our designers originate their patterns in the heart of the style centres, and their creations are those of tested popularity, brought within the means of the average woman. Price of the book 10 cents the copy.

**There is
only one
way to kill
all the Flies**

This is it—Darken the room as much as possible, close the windows, raise one of the blinds where the sun shines in, about eight inches; place as many Wilson's Fly Pads as possible on the window ledge where the light is strong, leave the room closed for two or three hours, then sweep up the flies and burn them. See illustration below.
Put the plates away out of the reach of children until re-quired in another room.

**The right
way to use
Wilson's
Fly Pads**

OUR CROSSWORD PUZZLE

Horizontal

- 1—Stupor.
- 7—Plays without expression (mus.).
- 13—Good-bye.
- 14—Prior to.
- 15—A style of modern type.
- 16—To form anew.
- 18—To revive.
- 19—Phaw.
- 20—Expressed gratitude.
- 23—A bushy tumor.
- 24—Single.
- 26—Stopped, finished.
- 27—Withered (var.).
- 28—River in Alaska.
- 30—An association of people.
- 33—Small Asiatic lemur.
- 34—For.
- 36—A judge, an umpire.
- 37—Taste (var.).
- 38—Latin (abbr.).
- 39—Pully.
- 41—Cone-shaped.
- 43—To have upward, as a vessel on a wave.
- 46—To pave with flagstones.
- 48—Capital of the island of Crete.

Vertical

- 50—Facility.
- 52—Frolic.
- 53—A dress goods.
- 55—Among (post).
- 56—Rule of descent.
- 58—Oiling astray.
- 60—Man's name.
- 61—Southern sweet potato.
- 62—To besiege (rare).
- 63—Curly.
- 64—Pebbles.
- 1—A large fish found in southern waters.
- 2—A roofed theatre in ancient Greece.
- 3—Abundantly.
- 4—A small vegetable.
- 5—To eject.
- 6—To mark with a hot iron.
- 8—Walked.
- 9—A settled habit.
- 10—Not afraid.
- 11—A bishop's head dress.
- 12—Paris of a play.
- 17—Pertaining to theory.
- 18—To repeat.

Looks Like Pleasant Farm

But England's Lesper Colony is Lonely

Isolated spot
England's leper colony is one of the most lonely and isolated spots in that country. Travellers on these remote roads pass a collection of small houses set in the heart of fields. There are cows, and poultry, and a dog that barks fiercely. It looks like a pleasant small holding. But the inhabitants of the houses are lepers. They are British men, women and children who have lived abroad, and who once in perfect health have contracted leprosy. An Anglican priesthood gives them the most tender care.

Sounded Too Familiar

First Dub: How did you like Hamlet last night?

Second Dub: Well, it seemed like a good show, but it was all made up of quotations.

Answer to Last Week's Puzzle

Coming To Canada

Fifty-six single young men who have undergone six months training in agricultural work at the ministry of labor's training centres at Brandon and Clayton in Suffolk, left for Canada recently on the Empress of France. They will proceed to Winnipeg where they will be placed on selected farms.

A TEMPORARY CABINET FOR NEW GOVERNMENT

Ottawa.—Acceptance by Right Hon. Arthur Meighen of the post of prime minister, formation by him of a temporary ministry composed of seven members without portfolio, and the decision to proceed with the work of the session until it is completed, were the outstanding features of a statement made in the house by Sir Henry Drayton.

From the treasury benches to the right of the speaker, Sir Henry read his statement to the crowded house and galleries. The announcement of the temporary appointments was received with some jeers by the Liberal opposition, while Conservative cheers answered them. The ministers who will constitute the temporary ministry were:

Sir Henry Drayton, finance department and railways department.

Hon. R. J. Macdon, department of health, soldiers' civil re-establishment, post office, immigration and labor.

Sir George Perley, department of secretary of state and public works.

Hon. H. H. Stevens, customs, interior, Indian affairs, agriculture, trade and commerce.

Hon. Hugh Guthrie, justice, national defence.

Hon. W. A. Black, department of marine and fisheries.

Mr. Meighen assumes the portfolios of secretary of state for external affairs and president of the privy council.

Sir George Perley, the statement said, will have charge of matters affecting these departments during Mr. Meighen's absence from the house.

Rural Credits Bill

Has Passed Senate With a Few Amendments

Ottawa.—Rural credits passed the senate—with amendments. The measure, which recently passed the commons, sponsored by the Mackenzie King Government, now goes back to the commons for the concurrence of that chamber in the amendments which the upper chamber has made in it.

The two principal changes made were the removal of the limitation of one per cent. for expenses and leaving the amount in the judgment of the board, and placing responsibility for all expenses incurred in a province on the province in which they were incurred.

Senator W. B. Ross, Conservative leader, had moved at an earlier stage that "the act should not come into force until the majority of the provincial legislatures had by legislative enactments signified their intention of participating in this scheme."

He said the bill was not needed, as the provinces which had already rural credits were making profits.

Senator Schaffner said that to make it compulsory to have five provinces in the scheme before it became operative was a good way to kill it.

Senators Dandurand and Willoughby opposed the amendment. The bill was for all Canada while it was primarily to help western farmers. The time might come when the east would need such a law.

Senator Brique spoke in favor of the bill. It carried out a duty the east owed to the west.

Find Ring In Grain Car

Lost Last Fall In Wheat Separator Near Findlater

Regina.—Some time last September Ed. Hillebrand's farm, near Findlater, J. H. Robb, the Case Co. representative, lost a ring while examining the wheat in the separator.

The other day E. J. Topping received the following from the N. M. Patterson Grain Co., Winnipeg:

"Dear Sir:—We are today in receipt of a wire from Mr. Graves at Findlater in Manitoba advising that they found a Masonic ring in car No. 345419 which was shipped by you from Findlater. Do you know anything about it?"

"You do communicate directly with him at Port William, care of N. W. Patterson Co." WILLIAM PATTERSON CO.

A few days later the ring was back to the owner.

Is Again Premier

Rt. Hon. Arthur Meighen, who has been called upon to form a new Government at Ottawa.

Predicts Industrial Activity For Canada

C.N.R. President Advises People To Stay in Dominion

Montreal.—"The United States sent a great railway man to Canada in the person of Lord Shaugnessy who was one of the greatest empire builders, few men having done as much as he did for Canada. If I can make a slight approach to his work I shall not have lived in vain."

So declared Sir Henry Thornton, president of the Canadian National Railways, speaking at a banquet of the American Railway Association here.

Sir Henry made mention of the harmonious existence in Montreal of two great races, and also to the lure that the United States has had for many Canadians, drawn thither by commercial advantages. He warned prospective emigrants, however, that theirs will be the advantage if they stay at home and are content to look ahead to the future in which joins the star of prosperity.

"Things are going to happen in Canada in the next ten years," he stated emphatically, "for Canada is on the threshold of great industrial activity."

Weather Prediction Not Fulfilled

"Summerless" Forecasters All Wrong Says Sir Frederick Stupart

Toronto.—Predictions that 1926 would be a "summerless year" have so far not been fulfilled. This prediction was made by H. J. Browne, ocean meteorologist, of Washington, last fall.

April was unusually cold, but May was somewhat above the average temperature. June is a little colder than the average, but not much. This information was given by Sir Frederick Stupart, director of the Dominion Observatory here, and weather forecaster for the Dominion.

Sir Frederick was not worried about the report that this would be a "no summer year." "I put little faith in weather prophecies for long periods ahead," he said. "We have not the knowledge to determine such events in the future."

New Red Lake

Strike Reported

Said To Be As Good As Any Yet Discovered

Toronto.—A special dispatch to the Toronto Star from Hudson, Ont., reports a big new strike at Red Lake.

The report states that this was flashed around the mining camp and that the find is on what is known as the Bill Smith group, a mile east of McKenna Island. Veins are said to have been uncovered as good as anything yet found at Red Lake or vicinity.

The Star says: "A number of average channel samples from this property assayed from \$9. to \$22 per ton for gold, with an equal quantity of silver."

Advocates Reform of League Pact

Paris.—The International judicial union is studying a report of Alejandro Alvarez, of Chile, advocating reform of the League of Nations pact, with the creation of separate American and European league of nations in mind.

FARMERS' PARTY OF ALBERTA TO REMAIN IN POWER

Calgary.—Premier J. E. Brownlee has been returned to power at the head of the United Farmers of Alberta. He will have an undiminished majority in the legislature. Liberals will probably retain their numerical strength. The Conservative party made a gain of three seats. Two Labor members, and possibly a third, pledged to support the government, were elected.

Additional returns came slowly to day and tonight due to the arduous task of counting the preferences under the proportional representation system. In quite a few cases several days will elapse before elections can be definitely declared.

Labor suffered because of the Conservative vote in Calgary, returning but one member compared to two from the city in the last election. Hon. Alex. Ross, minister of public works, labor candidate, was defeated and the labor vote generally was small.

Constituents represented by U.F.A. members in the fifth legislature returned their representatives as a general rule. In Beaver River and Edmonton the party gained members.

In the two new seats, Empress and Cypress, added since the 1921 provincial election, farmer candidates were returned.

Austria Confident Of Financial Prosperity

Country Has Had Hard Struggle Since Armistice

Vienna.—War in the Balkans will be the last thing Austria would want to see. We want nothing but to be left in peace. We have no racial minorities, we seek to recover no lost provinces. We only want to live and be useful."

One of the greatest Vienna bankers is speaking. He is a cultured, proud historicist of the old days of the dual monarchy when the banks of Vienna competed with London, Berlin, Paris, Frankfurt and Munich.

"Austria has struggled hard and far since the armistice," he said. "We have had repeated setbacks and disasters, but we have come back to our task each time and always has it been proven that there are no artificial shortcuts to solvency and to success and prosperity."

"The depression followed us all through last year. Although our unemployment continues to increase, I believe that now we have turned the corner, although we face tremendous difficulties."

Gets Seven Years

Winnipeg.—Joseph X. Hearst, former president of the Hearst Music Publishing Company, was sentenced to seven years imprisonment in Stony Mountain penitentiary. He was found guilty of eight charges involving fraud and making use of forged documents and false pretences.

Miners Stand Pat

London.—"The miners' executive committee, after reviewing the coal situation, determined to stand by their decision to resist any increase in hours or reduction in wages."

Would Colonize Russia

American Jews Give Ukraine Preference Over Palestine

Riga, Latvia.—A large majority of American Jews are in favor of the American Government recognizing Soviet Russia, according to Dr. Joseph Rosen, director of the American Joint Distribution Committee, which has collected \$20,000,000 in the United States to colonize Jews on farm land in the Ukraine.

In an interview published in the Leningrad Krasny Gazette, Dr. Rosen says only a few Jewish social and democratic papers, such as the New York Vorwarts and a few of the Jewish labor unions oppose recognition.

The American Jewry, continues Dr. Rosen, has decided it is better to assist the Russian plan for colonizing Jews in the Kherson district, averting future pogroms, instead of helping Palestine at present. Of the 3,000,000 Jews in Russia he estimates that more than 1,000,000 are unable to earn a living, so the colonization plan was voted preference over the Palestine project by a meeting of the American Jews in New York.

Is Appointed Manager

E. G. Hingley Is the New Manager of the Saskatchewan Wheat Pool

Regina.—Appointment of E. G. Hingley, secretary-manager of the Saskatchewan Municipal Hall Insurance Association, as manager of the Saskatchewan Wheat Pool, was officially announced following the reorganization of the Wheat Pool and Saskatchewan Co-operative Elevator Company's executives.

Donald MacRae, who has been joint manager of the Wheat Pool and the Pool Elevators Ltd., is appointed to the position of manager of the reorganized pool elevators, while S. G. Lowthian, treasurer of the Saskatchewan Co-operative Elevator Company, becomes treasurer of the Wheat Pool in succession to J. D. Reed who takes over the treasurership of the Saskatchewan Pool Elevators Ltd.

British Comment

London Times On the Resignation of the King Government

London.—The London Times, commenting on the result of the resignation of the King Government in Canada, stated that the agitated debate at Ottawa on a purely domestic issue revealed the inherent weakness of the government, which could never count on a solid party majority, but was dependent on vague affinities with a declining group whose own prospects were obscure.

The Times continues that "it is not necessary to analyze the nature of the charges or attempts to assess the losses said to have been caused by the Canadian business community generally by the alleged extensive smuggling."

Planned To Shoot Mussolini

Rome.—Rito Zamboni, former Socialist deputy, has confessed that he planned to shoot Premier Mussolini, according to a report of the attorney-general's investigation of the case, made public here. Zamboni was arrested October 4 last, armed with a rifle, in an hotel room overlooking the balcony of the Chigi Palace from which the premier was to deliver an address.

FOR CLEAN-UP OF CUSTOMS FROM COAST TO COAST

Ottawa.—"The farmers party stands for a complete clean-up of the customs from coast to coast," said Miss Agnes McNeill to the Canadian Press after the Progressive party caucus.

"The present inquiry has been confined to only two ports and has but scratched the surface. It must be extended from coast to coast and be complete, without fear or favor, and irrespective of where the chips fall. There should be a judicial inquiry, and this should represent all groups in the house—that is to say, one judge should be nominated by the Liberals, one by the Conservatives and one by the Independent group. This commission should proceed to work immediately after adjournment of parliament and parliament should not meet again until the report is complete, whether it takes six or eight months. Then parliament will be in a position to consider the whole question on its merits; there will be no shattering of higher-ups, to whatever party they may belong, and the general result will be a clean-up of political life in Canada of lasting benefit."

Great Damage Is Caused By Earthquake

Most of Countries Bordering On Eastern Mediterranean Effected

London.—The great earthquake which embraced Italy and most of the countries bordering on the Eastern Mediterranean, was much more widespread than first reports indicated. It extended as far as the East Indies, heavy shocks being experienced at Singapore and Central Sumatra.

Thus far the reports do not indicate any serious casualties in Crete, which appears to have been the centre of the disturbances, nobody was killed and only a few were injured.

Advices received from Rome indicate that the island of Rhodes, which is under Italian sovereignty, suffered very heavy shocks, numerous villages being partially wrecked, and thousands of small houses rased, but even there the loss of life or injury to the inhabitants seems to have been slight.

Latest advices from Crete confirm that the damage to the archaeological museum at Candia was not so serious, among the many antiquities destroyed being a mural painting representing a bull fight at the Minoan Court.

Bitter Verbal Clash In British House

Labor M.P. and Secretary of Mines in Dispute

London.—Another turbulent scene in which Joseph Westwood, Labor member for Middleton and Peebles, threatened personal violence against Col. George Lane-Fox, secretary of mines, occurred in the House of Commons when debate was resumed on the government order which would permit coal miners to work eight hours a day instead of seven as at present. Col. Lane-Fox stated that if he had said anything which seemed offensive he withdrew it.

He thought there had been misconception of what he had said.

Mr. Westwood had previously threatened to take a boot off and throw it at Col. Lane-Fox, "if I cannot get anything else."

The Labor member was deeply moved by a remark which he thought reflected on the courage of his men folk.

Young Englishmen Coming To Canada

Have Taken Six Months Training In Agricultural Work

London.—Fifty-six single young men who have undergone six months training in agricultural work at the ministry of labor's training centres at Brandon and Clayton in Suffolk, left for Canada on the Empress of France. They will proceed to Winnipeg where they will be placed on selected farms.

The country of Thibet is reported to have only one motor vehicle, which is a motorcycle.

To Carry Canada's Products Abroad

The new freighter S.S. "Cairnesh," just launched at Sunderland, England, is one of the two new sister vessels specially designed for the Cairns-Thomson line service between the northeast coast of Great Britain and Canada.

The carriage of perishable foodstuffs from this country to Great Britain is a most important function of this service. The "Cairnesh" equipment embodies the most modern facilities for refrigeration, ventilation and carriage of perishable goods.

Stormont, the best mine in Nova
Scotia, when gold-mining in the
province was an industry, is to be
re-opened. Until it closed down,
twelve years ago, Stormont mine had
produced over 575,000 tons of ore,
giving an average of free gold of
\$4.13 per ton, or \$2,225,000 during
its activity.

A record single shipment of Indian
motor-cycles, consisting of 85 cases,
from Armory, Mass., recently ar-
rived in Tokyo, Japan, having come
forward by Canadian Pacific Rail
and steamer lines. The demand for
motor-cycles in Japan is a steadily
increasing one, being a cheap and
convenient method of locomotion and
well suited to the somewhat narrow
roads of that country.

Twenty-one British Rotarians re-
cently came over to Canada on the
Canadian Pacific liner "Montclare"
en route to the International Rotary
convention at Denver. On their re-
turn trip they came back through
Canada, calling at Winnipeg and
Port William, and taking the Great
Lakes trip on C.P.R. steamboat to
Port McNicoll. They returned to the
Old Country by the C.P. liner "Mont-
calm."

The Canadian Pacific Railway has
just added two of the new Mount
Class observation cars to those run-
ning out of Montreal. Five more
are just about ready to run and the
balance of four cars will be ready
for service shortly after these. They
are all-steel cars, made up of three
compartments, and one drawing
room with a parlor room and ob-
servation platform. They will be a
feature of long-run trains on the
C.P.R.

The English football team now
touring Canada had one of the most
strenuous work-outs in the history
of any athletic body. Staying for a
week-end at the Chateau Lake Louise
they had a practise at an altitude
of a mile and a half above sea level,
where the thinness and dryness of
the air had a wonderful effect upon
them. Their captain thought it re-
markable that prize-fighters in train-
ing had not utilized the marvellous
properties of this training camp.

A fourteen-car special Canadian
Pacific Railway train carried more
than a hundred of the most promi-
nent representatives of banking and
financial interests of New York City
and State to Quebec, where they held
their 23rd annual convention of the
New York State Bankers' Associa-
tion at the Chateau Frontenac re-
cently. Included in the party was
Col. J. W. McIntosh, Comptroller of
Currency, Washington; and W. J.
Donovan, Assistant Attorney-Gen-
eral of the U.S., and several finan-
cial specialists of New York's lead-
ing newspapers.

While Canadian Pacific train No. 87
was standing on public crossing pre-
paratory to taking passing track, an
automobile, occupied by four persons,
ran into the side of the train, badly
damaging the auto. In another case,
a driver said he saw the train and
heard the whistle signals sounded,
but too late to avoid running into
the side of the engine. Yet again, a
touring car, travelling about 25 miles
per hour, ran through the crossing
barriers at a public crossing in
Montreal but did not stop. No in-
juries were reported in all three in-
cidents.

Representing capital running into
billions of dollars, a party of around
eighty prominent bankers, financiers
and men representing commercial
and business interests, recently ar-
rived at the Windsor Street Station,
Montreal, from New York, and made
a tour of the pulp and paper indus-
tries and the new aluminum dis-
tricts of the St. Maurice and Sagua-
nay Valleys in Quebec Province, with
a view to personal inspection of the
prospects in those great develop-
ments. The party was accommo-
dated with five twelve-section com-
partments and drawing room sleep-
ers, two dining cars and the private
car "Montromney," the whole be-
ing C.P.R. equipment.

FREE CAMPING GROUNDS FOR MOTOR PARTIES

Special Sale of Advance Tickets closes July 3rd. Six tickets for \$2.00. Mail orders filled promptly at Exhibition Office.

EXCURSION RATES on ALL RAILWAYS from All Points in ALBERTA and SASKATCHEWAN

P. W. ABBOTT, President. W. J. STARR, Manager.

Edmonton Exhibition.

The Edmonton Exhibition this year will have much of interest for all those who have been in Alberta for a number of years and also for anyone interested in the progress of Alberta during the past 100 years.

The Historical Pageant, commemorating the coming of age of the city and province, will be a truly artistic and educational treat. Participated in by a cast of 600 performers, trained in the historical scenes and dances by experts, and assisted by a chorus of 200 voices; it will be a spectacle of great beauty. Never before has such a splendid production been staged by local talent and those who see it will undoubtedly regret that they did not see it.

Another real attraction this year is the famous band of His Majesty's Coldstream Guards, the most wonderful musical organization in the world. The band will play each day at Edmonton Fair, and if you hear nothing else you will be amply repaid for your visit.

The association has made the usual arrangements for out-of-town motor parties. These grounds are fully equipped for dining purposes and are free to out-of-town visitors.

Arrangements have also been made with the railways for excursion rates from all points in Alberta and Saskatchewan.

Strange Romantic Love Adventures of the Happier you know!

THE STORY THUS FAR

Joanna, a pretty, ultra-modern, shop girl is told by her employer that she has been given a million dollars to spend by an unknown benefactor. She is not even to know his name, there are no "conditions" to meet before she can get the money. Nothing more than this can be gained from banker Eggleston, nor his suave, man-about-town nephew, Brandon, who informs her that he intends to make love to her while helping her write her first check. Dazed by this sudden deluge of wealth, hurt because her friends and acquaintances will not believe in her, she returns home happy after an orgy of buying to find John, her old-fashioned sweetheart and Brandon awaiting her. Brandon is suave, John silent—almost morose. After Brandon leaves, John informs Joanna that he does not like her. He came by the money honorably. She is angry.

CHAPTER VII.—(Continued)

With her awakening to the new day—the first full day of her new estate, varying emotions rushed in confusion into Joanna's mind. Her first thought was of John. With it came the surge of recollection of the accident, the "drawing room only." She winced at the sudden memory. She would get hold of him right away. She wouldn't lose a minute—before he went to his work! She hurried her hand in the hair on the pillow beside her. George, who had stubbornly shut her eyes, refusing to be ordered up by any housemaid, but opened them wide at the viciousness of Joanna's tag at her shingled head.

"Pile up and get dressed," Joanna commanded. "And be quick, or I'll make up afterwards. Bring some things in and we'll ask Mrs. Adams to let us cook them in the kitchen for breakfast—and I want you—to telephone from downstairs on your way out."

George, her wits not fully gathered, broke off short in a general remark to the effect that some people had their crust. Things came back to her, especially that she must send word to the store that she'd broken a leg, or her neck, and couldn't show up at the silk counter until the next day, and that Joanna was going to take her shopping. She blotted out her first remark with: "Surest thing you know." And in her next breath, as one of the way people kept their affairs straight, she added:

"I'll make the telephone in about two minutes. What did you say John's number is?"

But Joanna decided she wouldn't telephone to John. The hurt was too lively, and bitter. She didn't even

PAINS ALL OVER BODY

Two More Cases of Feminine Illness Relieved by Lydia E. Pinkham's Vegetable Compound

Barrington, N. S.—"I had terrible feelings, headaches, back and side aches and pains all over my body. I would have to go to bed every night and nothing would do me good. My husband and my father did my work for me as I have two children and we have quite a little. I read in the paper about Lydia E. Pinkham's Vegetable Compound, and then got a little book about it through the mail, and my husband sent to Eaton's and got me a bottle, and then we got more from the store. I am feeling fine now and do all my work and am able to go out around more. I tell my friends it is Lydia E. Pinkham's Vegetable Compound that makes me feel so well."—Mrs. V. J. BARRINGTON, Barrington, Nova Scotia.

Dull Pains in Back

St. Thomas, Ont.—"I took four bottles of Lydia E. Pinkham's Vegetable Compound and found relief from the dull, heavy pains in the small of my back and the weakness from which I suffered for five years after my boy was born. After taking the Vegetable Compound and using Lydia E. Pinkham's Sensitive Wash I am feeling better than I have for the past seven years, and advise my friends to take it."—Mrs. F. J. JONES, Moore Street, St. Thomas, Ont. G.

W. N. U. 1636

want to ever hear from him again. Brandon had said she mustn't make mistakes. That her perspective was no longer that of the shop girl's. Brandon! Who, and what, was he? He must be mixed up in this strange affair of her's in some way, but he devoted to her. She didn't like him. Why? She was afraid of him. Why? Wasn't it because she was afraid of him, of his association with her unpleasant good fortune, that she didn't like him? He had been so quick to begin his acquaintance with her, and he frankly said he was going to be devoted to her.

Yet Brandon had nothing to do with her amended command to George who had whistled her way into the few clothes she habitually wore and who was asking what she'd say to John when she got him.

"Nothing," Joanna replied, tartly. "I don't want you to call him. Don't be silly. I was only joking. Just get the breakfast. Take a five hundred dollar bill and tell me what department men look like when they have fun."

Awakening to the first full day of her new estate, her first thought was of John.

Which George gayly did. Her report was hysterically satisfactory, coherent only by the discovery that she'd been short-changed ten dollars out of the twenty dollar bill she had finally given him.

"Let him keep it," Joanna ordered, shortly. "I'll be something to remind him of the next time he refused you credit."

"If you get me those duds you've promised me," George returned, "I'll get my herring and dill pickles at the Ritz. See if I don't. All I need is clothes to get out of the delicatessen class."

Joanna shot a keen look at her, but said nothing. John had turned her soul against preaching.

The beautifications that are suitable to new street tailors, Joanna's which she had worn the afternoon before, and her preliminary gift to George, which George had blossomed in for the evening, are not hasty ceremonies. It was well toward noon when the two girls settled in their taxi. And then George had to wait, a block from the store, where she would not be detected as having broken neither a leg nor a neck, while Joanna presented herself to Mr. Graydon's secretary. She just wanted to talk to him again, she explained, and to let him see her.

The "boss" of yesterday made her understand that he was her "friend" of today, and all days. He thanked her, gently, for stopping in, and hoped that she would come in often. But he would not give her the thing she asked. Advice. Something that would be a hint to her of what was expected of her, of what she should do to carry out the wishes, or the plans, of her unknown benefactor.

"I have been cautioned by your banker, Eggleston," he said, "that I

must not pretend to advise you. Not now, at any rate. Mr. Eggleston is emphatic in saying that a condition that went with the money was that you solve your own problems. After a while, perhaps, some of the severity of the ban may be lifted. Just now I mustn't interfere."

"Am I just to take all this money and go out and spend it, then?" Joanna persisted.

"Just go out and spend it—some way. I suppose that is one way of repeating that you may do with it whatever you wish."

So naturally that she did not know that she was doing it, she began to tell him about Cohen, and Mrs. Adams, and John. Suddenly she hesitated and was abashed. "But all that doesn't interest you, does it?" she apologized.

The gray man had been watching her intently. Almost eagerly. He reassured her quickly. "On the contrary, Joanna, that is just what I mean, it does interest me tremendously. Won't you go on—about John? You straightened him out, I hope and it's quite all right, now."

"No," Joanna replied, her voice quivering a little. "I didn't, and it isn't. I'm afraid it's all crooked in his mind."

"What are you going to do about it?"

"Just let it stay crooked, I guess. Crooked things that ought to be straight, must get that way by themselves, I think. If they have to be hammered out, they're only make-believes." She was silent, for a minute, then added so suddenly that Graydon was sure she hoped to catch him off his guard.

"What would you do about it if you were in my place?"

He smiled. "That is one of the very things I must advise you about. But I shall want to know, very sincerely, when it begins to straighten out—and see what happens then. I shall be interested in John."

"Well, that's more than I am, right now," the girl retorted. She was restless under the keen scrutiny which Graydon was suddenly observing her. She was still uncomfortable when she said goodbye to him. She had intended to ask him what part in her affairs he thought Brandon was to play. But she concluded that she would have to find that out for herself, too. It was then that she realized that perhaps Brandon could show her the way to go, as well—better, perhaps, than John.

(To be continued)

Gradually Clearing Scapa Flow

Cruiser Hindenburg, When Scrapped Will More Than Pay Salvage Cost. Sunk by her crew at Scapa Flow over six years ago, the German cruiser Hindenburg will be aloft again in a few months. How is it to be done, and what will happen then?

Already twenty-one smaller warships have been brought to the surface by means of wires passed under them from floating docks, but the Hindenburg, with a tonnage of 27,000, is much too heavy for that. She is to be made to rise of her own accord by having the water pumped out of her.

To do this all her portholes and all the eight "sea cocks" the Germans opened to sink her, will have to be covered with patches of concrete or steel. To get at the sea cocks, which are round holes in her hull, two feet across, it will be necessary to make tunnels in the sea bed on which she lies and to scrape away the barnacles and seaweed that cover her bottom.

All this will take twelve divers six months, but when they have done forty pumps will pump out some thing like 60,000 tons of water in twelve hours, and the Hindenburg will then slowly rise to the surface.

And what then? She will be run aground and broken up for scrap, the value of which will be more than worth the cost. After that the remaining big ships will be raised, at the rate of two a year, till Scapa Flow is clear of them.

WEAK AND NERVOUS

A Condition Due to Watery Blood — Easily Corrected through the Use of Dr. Williams' Pink Pills

This, pale girls lack the power of resistance to disease that rich, red blood gives. Nervous breakdown is the result of this blood. So is indigestion, headaches, backaches and many other troubles. Girls suffering from this, impure blood need just the help Dr. Williams' Pink Pills can give. For many years Dr. Williams' Pink Pills have been a world-famous blood-builder and nerve restorer. They actually make new, rich, red blood which imparts new vigor and life to the organs of the body. Their first effect is usually shown by an improved appetite, then the spirits revive and restlessness at night gives way to health restoring sleep. For sufferers from anaemia, nervousness, general weakness or physical exhaustion Dr. Williams' Pink Pills are a restorative of the utmost value. This is proved by the experience of Miss Sarah A. McEachern, R.R. No. 3, Brule, N.S., who says:—"About three years ago I became very weak and nervous. I had pains in my side and back. I also had frequent pains in the back of my head and neck. I was very pale and very weak. I had attacks of nervous irritability, and at times I was so nervous that I seemed almost to have nervous living. While in this condition a friend strongly advised me to take Dr. Williams' Pink Pills. I began taking these pills and used them for about two months with the result that they had such an improvement in my condition that friends would ask me what I was taking, and I would go too glad to tell them it was 'Williams' Pink Pills. I am now enjoying good health and am glad to give this statement for the benefit it may be to some other sufferer."

You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Minard's Liniment for Rheumatism

Ricksha Pulling Hard Work

Men Following This Occupation Wear

Sociologists looking into the question in Pekin, China, have determined that the business career of those fulfilling the motive power for the man-drawn ricksha is only five years. Such is the endurance period of the arduous work. In and out of employment there are from 40,000 to 50,000 ricksha men in the metropolitan district. Street cars are slow to gain popularity.

Many mothers have reason to bless Mother Graves' Worm Exterminator, because it has relieved the little ones of suffering and made them healthy.

Little Helps For This Week

Cause me to know the way wherein I should walk.—Ps. cxlxi, 8.

Then a voice within his breast

Whispered audible and clear.

As it to the outward ear,

"Do thy duty, that is best,

Leave unto thy Lord the rest."

—Henry Wadsworth Longfellow.

Keep close to duty. Long may the future, if only you have peace of conscience; if you feel yourself reconciled, and in harmony with the order of things. Be what you ought to be: the rest is God's affair. It is for Him to know what is best.

—Henri Frederic Amiel.

Let us stand by our duty, fearlessly and effectively.

—Abraham Lincoln.

Detecting Crimes By Dust

Clever Detective Resorts to Use of Vacuum Cleaner

Probably the cleverest living detective is Professor Locard of Lyons, whose feats are the wonder of all Europe. Many of them, obviously enough, have been performed with the help of a vacuum cleaner, with which he draws specks of dust, etc., from the clothing of suspected persons; and these microscopic clues have already sent dozens of murderers to the guillotine.

For Both House and Stable.—There is a good deal of similarity, physically speaking, between human beings and the lower animals. Both are subject to many ailments arising from inflammation and to all manner of cuts and bruises. Dr. Thomas' Electric Oil is an entirely reliable remedy for such ailments and mishaps in both human beings and the lower orders of animals.

Bacon Lights Scare Coyotes

Sheepmen of Utah county, Utah, say the new bacon lights on the all-way of the transcontinental mail route have frightened away the herdsmen's eternal enemy—the coyote.

For Rheumatic Pains.—The pains and aches of Sciatica and Rheumatism should be treated with Dr. Thomas' Electric Oil. The soothing and healing properties of this famous remedy have been demonstrated for fifty years. Use it also for inflammatory pains, cuts, scratches, bruises and sprains, either in human beings or the lower animals.

Gold Finder Did Not

After making and losing several fortunes, James Marshall, who was first to discover gold in California, died in poverty and solitude in a lonely cabin close to the spot where he made his epochal discovery of gold 37 years before.

Stony Plain and District.

Miss Kate Welber and Miss Ray Wolfe, Edmonton, were week-end visitors at the homes of their parents, Glory Hills.

At the meeting of Inga councillors on Friday Mr D McDonald was appointed a special constable for duty at Edmonton Beach each and every Sunday during the season, and assumed his duties last Sunday.

While driving his car to Edmonton Beach on the trail west of that resort, on Sunday afternoon last, Mr B B Miller was unfortunate enough in driving over a grade when passing another car, driven by a man from Stony. Mrs Miller was thrown from her car and sustained a severe shaking-up. There was damage to the car, also.

The Rotary Club's camp at Edmonton Beach is now in operation, with 65 boys, a record crowd.

Mr J A Barrie announces a dance to be held at Edmonton Beach every Wednesday and Saturday evenings.

Mr Val Mohr has taken his outfit down to his newly-acquired farm near Locknow schoolhouse, and is engaged in "breaking" on the land and in putting up a new dwelling.

Heatherdown Dramatic Society intends invading Stony Plain tomorrow night, when they show their new play, which drew crowded houses in their home town and Onaway. After showing in Stony, the troupe moves to Manly hall and, probably, Edmonton Beach. A dance follows the show.

A big dance was held the holiday night at Warden's barn, Leasowe. This followed a splendid afternoon of games and sports.

Graminia U.F.A. Local intends holding a farmers' picnic tomorrow (Friday) at the farm of Mr Jas Gray. Horse races, tug-of-war, and races for everybody are on the bill.

Holborn U.F.A. held its annual picnic at Edmonton Beach on Sunday, which was participated in by all the members and their friends.

There was a fair crowd at Holborn Hall Friday night, at James Warner's birthday party. A good time was enjoyed by all, and the refreshments were good. On leaving everyone wished Jim another happy 50 years.

Muir Lake ballplayers came down to Glory Hills Sunday last to play, and a good game was the result. Score: Hillers 7, Lakers 8.

A lady from the old country has come and would like to do housekeeping. She is 49 years old, is well and strong. Please see Mr Odenbach.

Subscribers will greatly oblige by sending remittances by C. N. Express orders.

Meeting of Inga Councillors.

The members of Inga M D held their regular meeting in Stony Friday July 2, with all the Councillors present and Reeve McKinlay in the chair.

Among the delegations present was one from Keep Hills headed by Mr Elson, who spoke of the necessity of opening up roads in his district. Considerable fencing-up has been in progress for some time, and the settlers are finding themselves fenced in, their old trails being eliminated, and thus they are barred from their natural market.

Mr McLroy, representing a road making machinery company, was present.

An excellent discussion on the benefits (and otherwise) of the workings of the Herd Law in Inga district was given by Mr Walton, an old-time settler of wide experience, who gave his views on the question in his usual forceful style.

A letter from the Commissioner of Field Crops branch of the Dept. of Agriculture was read, which recommended the necessity of weed in spectors being kept out during threshing season to see that machines are properly cleaned before moving from one job to another, as it was considered that badly-cleaned threshing machines was one of the best ways of spreading noxious weed seeds.

Fire at Glory Hills.

About 10.30 on the evening of Thursday, July 1st, fire was discovered in the barn of Mr Henry Giebelhaus, three miles north of Stony. The occupants of the houses on the farm had all retired for the night, but were quickly aroused, the men making an effort to save the six horses in the barn. This was done, but a similar effort to save the four sets of double harness in the barn at the time was not successful. The building was totally consumed. The neighbors turned out, and did yeoman service in preventing the fire from spreading to the adjoining sheds. They were assisted in this by a party of volunteers which went out from Stony when the call for help came.

Mr Giebelhaus was away at the time of the fire, he having gone up to his north farm to work, and he was not acquainted with the bad news till the following day.

Mr Giebelhaus carried an insurance policy with Mr Geo F Harris, the insurance agent.

Stony Plain and District.

Mr and Mrs Henry Giebelhaus wish to thank all those who gave such valuable assistance in putting out the recent fire at their farm.

Following the large amount of brush-cutting done in this district this season by the large bunch of foreigners imported here, there is considerable new land being broken. Mr Speakman, agent for the Cockshutt Plow Co., reports the sale of over 20 "breaking" plows this season.

Otto Hoffman has sold the Charly Holling section of land south of Stony, near the river, to Mr Arthur Gates, a newcomer, for \$20 an acre.

The sale on Saturday last of the effects of Rev Shippa nowski, by Auctioneer Washburn was a very successful one, the articles offered bringing particularly good prices.

Auctioneer Zucht is holding a clearance sale at Duffield tomorrow for J R Darlington—stock, machinery, household goods.

Meredith Bros made a shipment of cattle this week, a car going from Stony, bought from: P Kulak 1, P Sutherland 4, L Hasse 2, M Pomeroy 1, Aug. Kreys 5, J Sutherland 1, Larson Bros 13, M Aronson 7. A car went from Carrol station, bought from: J Jim McDonald 7, B Moldenhauer 4, W Jensen 10, R Stycz 4, M Saladowska 7.

The Saturday train to the Beaches is now being operated.

A poster giving information regarding competitions for the destruction of gophers, crows, and other agricultural pests, issued by Game Commissioner Lawton, has arrived, and may be seen at The S.D. office.

Spruce Grove Notes.

Rev J J O'Halloran is spending the week in Edmonton.

Contractor Dickie is making good progress on the new road-house and tea-room under construction opposite the Duke's butcher shop.

The accident which occurred at Benerlein's crossing the holiday evening created quite a stir when it was rumored a local popular young lady was the victim. This was found to be incorrect when the lady herself turned up, hale and hearty. The car was driven by H Shortridge and turned upside down just after crossing the railway tracks. Miss Edna Edmonson suffered an injury to her knee and was taken to the City in an ambulance, while Dave Bell gave first aid to the car.
